Sign up at:

Iris Place is a non-profit organization that provides care and housing to mentally challenged adults. Its goals are to give its resident more responsibility by allowing them to have their own home to take care of, teach basic computer skills and gain confidence. Help me build Computer Workstations so these mentally challenged adults can have an environment to help them learn, use computers, and search for jobs. Also we will build shelves in their kitchen so that the community center can be better .
